## School Holiday Tips and Tricks

### Family Movie night

If the weather gods aren't playing ball or you've all had one too many days in the cold, take time out to curl up and have a **family movie night in**. Make your own popcorn, close the blinds and put on a **great movies that both boys and girls will enjoy**. It's a whole lot cheaper than taking everyone to the cinema

### Get crafty inspiration

Stage a crafternoon with the help of the hundreds of fun, free ideas here or get down to your local library for inspiration.

### Create an indoor obstacle course

Look, the kids are going to mess up the house anyway so you might as well let them do it constructively to keep them busy !
