

Changes ahead at Hub4Health

Hub4Health (formerly Healthy House/Break O'Day Health Resource Association) has been advocating and supporting health and community services in the Break O'Day area for over 20 years. Established by a dedicated volunteer group to bring GP's to St Helens, it grew over the years to offer social work, youth services, allied health, Building Blocks early years program and much more. Many fabulous staff and volunteers have come through the Hub4Health and have shown great dedication and commitment to our community for which we are all very grateful.

In recent years it has become clear that funding for health and community services is directed at larger organisations and that there is a focus on chronic health conditions rather than preventative health (which was Hub4Health's strength). As a result of these funding changes the current board of management have taken the difficult decision to wind up the organisation in 2021 and look to finding new homes for current programs so as to ensure their long-term viability.

All Hub4Health programs are now in transitioning to new hosts:

- Building Blocks and the Active4Life Gym programs will be with the Fingal Valley Neighbourhood House
- Walking Group will be with the St Helens Neighbourhood House
- Health Network will be with Brea O'Day Council
- Allied health services will continue with private providers remaining onsite until further changes are in place

As part of the changes the board have engaged Knight Frank to oversee the sale or transfer of the property at 5 Portland Crt. Hub4Health are keen to see the greatest community benefit come from the use of this asset and so will be calling for Expressions of interest as of next week – for more information then contact Doug.Marshall@au.knightfrank.com or KnightFrank.com.au
